Getting regular checkups and exams can help you stay healthy and catch problems early — when they're easier to treat.

That's why our health plans offer all the preventive care services and immunizations below — at no cost to you.\(^1\) As long as you see a doctor or use a pharmacy or lab in the plan, you won't have to pay anything for these services and immunizations. If you want to visit a doctor or pharmacy outside the plan, you may have to pay out of pocket.

Not sure which services make sense for you? Talk to your doctor. He or she can help you figure out what you need.

**Preventive vs. diagnostic care**

What's the difference? Preventive care helps protect you from getting sick. If your doctor recommends you have services even though you have no symptoms, that's preventive care. Diagnostic care is when you have symptoms and your doctor recommends services to determine what's causing those symptoms.

**Adult preventive care**

**Preventive physical exams**

**Screening tests:**

- Alcohol misuse: related screening and behavioral counseling
- Aortic aneurysm screening (men who have smoked)
- Behavioral counseling to promote a healthy diet
- Blood pressure
- Bone density test to screen for osteoporosis
- Cholesterol and lipid (fat) level
- Colorectal cancer, including fecal occult blood test, barium enema, flexible sigmoidoscopy, screening colonoscopy and related prep kit, and computed tomography (CT) colonography (as appropriate)\(^3\)
- Depression screening
- Hepatitis C virus (HCV) for people at high risk for infection and a one-time screening for adults born between 1945 and 1965
- Type 2 diabetes screening\(^*\)
- Eye chart test for vision\(^2\)

**Immunizations:**

- Diphtheria, tetanus and pertussis (whooping cough)
- Hepatitis A and hepatitis B
- Human papillomavirus (HPV)
- Influenza (flu)
- Measles, mumps and rubella (MMR)
- Meningococcal (meningitis)
- Pneumococcal (pneumonia)
- Varicella (chickenpox)
- Zoster (shingles)

**Women's preventive care:**

- Well-woman visits
- Breast cancer, including exam, mammogram, and genetic testing for BRCA 1 and BRCA 2 when certain criteria are met\(^4\)
- Breastfeeding: primary care intervention to promote breastfeeding support, supplies and counseling\(^5,6,7\)
- Contraceptive (birth control) counseling
- Food and Drug Administration (FDA)-approved contraceptive medical services, including sterilization, provided by a doctor
- Counseling related to chemoprevention for those with a high risk of breast cancer
- Counseling related to genetic testing for those with a family history of ovarian or breast cancer
- HPV screening
- Screening and counseling for interpersonal and domestic violence
- Pregnancy screenings, including gestational diabetes, hepatitis B, asymptomatic bacteriuria, Rh incompatibility, syphilis, HIV and depression\(^6\)
- Pelvic exam and Pap test, including screening for cervical cancer

These preventive care services are recommendations of the Affordable Care Act (ACA or health care reform law). They may not be right for every person, so ask your doctor what's right for you.

A word about pharmacy items

For 100% coverage of your over-the-counter (OTC) drugs and other pharmacy items listed here, you must:
- Meet certain age requirements and other rules.
- Get prescriptions from plan providers and fill them at plan pharmacies.
- Have prescriptions, even for OTC items.

Adult preventive drugs and other pharmacy items — age appropriate:
- Aspirin use (81 mg and 325 mg) for the prevention of cardiovascular disease, preeclampsia and colorectal cancer by adults less than 70 years old.
- Colonoscopy prep kit (generic or OTC only) when prescribed for preventive colon screening
- Generic low to moderate dose statins for members that are 40-75 years and have 1 or more CVD risk factors (dyslipidemia, diabetes, hypertension, or smoking)
- Tobacco-cessation products, including all FDA-approved brand and generic OTC and prescription products, for those ages 18 and older
- Lead testing
- Newborn screening
- Screening and counseling for obesity
- Counseling for those ages 10-24 with fair skin about lowering their risk for skin cancer
- Oral (dental health) assessment when done as part of a preventive care visit
- Screening and counseling for sexually transmitted infections
- Tobacco use: related screening and behavioral counseling
- Vision screening when done as part of a preventive care visit

Immunizations:
- Chickenpox
- Flu
- Haemophilus influenza type b (HiB)
- Hepatitis A and hepatitis B
- HPV
- Meningitis
- MMR
- Pneumonia
- Polio
- Rotavirus
- Whooping cough
